Profile

I am an experienced full-stack developer with a strong focus on backend development, and proficiency in technologies such as JavaScript, React, Next.js, and Python. I have used Python to build scalable and efficient web applications, leveraging framework like Django for backend development and also Nodejs. My expertise spans across both frontend and backend technologies, and I am passionate about creating robust software solutions. I am eager to join a company that challenges me and allows me to continue expanding my skills in Python, JavaScript, and full-stack development.

💼 Professional Experience

Boost Software Devt PLC

LMS

In the LMS project, I served as a Software Developer, where I played a pivotal role in designing and developing both front-end and back-end components.
I contributed to the project by implementing robust back-end services using Node.js and Express.js, crafting an intuitive user interface with React.js, and managing the MongoDB database to handle user and transaction data efficiently. My work included ensuring high software quality through comprehensive testing and achieving a successful deployment with a streamlined CI/CD process. The project resulted in a highly functional platform for managing collage teaching staff and students easily access the material for collage based , significantly enhancing user experience and operational reliability.

06/2023 – 10/2023
Bahir Dar, Ethiopia

Abyssinia Software Solutions

Full Stack Developer

- Collaborating with the team to design, develop, and maintain software solutions tailored to client needs.
- Ensuring software quality through debugging, testing, and following best practices.
- Integrating APIs and improving system performance for scalability.

08/2024 – Present
Addis Ababa, Ethiopia

🧠 Skills

| **Frontend** — React js , Next js , Vite, Redux, Tailwindcss, Typescript, Vue js , Nuxt js, |

| **Backend** — Nodejs,.Net Django,PHP | **Database** -Postgressql , MongoDb |

Education

Bsc Computer Engineering

- Gained Fundamental Knowledge of Computer Engineering and Practices.
- Enhanced Problem-Solving and Critical Thinking Skills.
- Gained Competence in Web Development.
- Cultivated Professionalism and Ethical Awareness.
